FOOD INDUSTRY

PRELUDE moccasin

MB1313

UPPER
Breathable and wear-resistant microfiber. Its ease of cleaning and maintenance make it a practical choice for everyday use.

LINING
Polypropylene non-woven fabric

TOECAP
Fiberglass, lightweight and non-magnetic, offers high protection against impacts and compressions, ensures good thermal insulation.

PUNCTURE-PROOF
/

FOOTBED
Anatomical Air-mix, made of multi-perforated EVA, antistatic with shock-absorbing properties. The thickness varies from 3 mm at the front to 10 mm in the heel area. It ensures comfort even during prolonged use.

SOLE
PU/PU, composed of two layers of polyurethane of different densities, offers advantages such as antistatic properties, impact absorption, and resistance to viscous substances. This type of sole improves safety by reducing the accumulation of static electricity, provides comfort while walking by reducing stress on the joints.

FEATURES
METAL FREE Occupational footwear compliant with EN ISO 20347 is designed for professional use without a protective toecap. This standard ensures that the footwear offers protection, durability, and comfort in work environments where protection against toe impact is not required.
