TECHNICAL SHEET

ULTRA LIGHT

K3-PLUS low shoe

MB2015

UPPER
Nylon fiber with KPU inserts, featuring polyurethane micro-injection, combines elasticity and resistance. Nylon, an elastic material highly resistant to tension and stress, ensures greater durability. Furthermore, its breathable and quick-drying properties guarantee breathability and freshness inside the footwear.

CLOSING
Laces with reinforced eyelets.

LINING
DRY PLUS in tight-weave polyester with extra protection in the heel area.

TOECAP
Fiberglass, lightweight and non-magnetic, offers high protection against impacts and compressions, ensures good thermal insulation.

PUNCTURE-PROOF
PS type composite, non-magnetic, antistatic, and thermal insulating. It offers maximum performance in terms of puncture resistance, full sole protection, and maximum flexibility.

FOOTBED
Bi-component material with a polyurethane foam shell and variable-thickness Memory PU: 4 mm in the front and 9 mm in the heel area, with significant shock-absorbing properties. Antistatic. Pre-shaped in the medial zone, it supports the foot's accommodation by adapting to its natural anatomy.

SOLE
EVA/Rubber, ergonomic, ultralight, soft, and flexible. The ultralight EVA midsole offers comfort and flexibility, while the shock absorption system in the midfoot area helps reduce fatigue during use. The rubber outsole improves anti-slip performance, especially on wet surfaces. The flat profile provides stability and support during walking and stationary work, making the footwear ideal for clean environments, smooth surfaces, and terrains with a low level of roughness. The high-performance rubber resists oils and hydrocarbons.

FEATURES
METAL FREE Sporty look and lightness, the ULTRA LIGHT prove particularly suitable for prolonged use thanks to the support and anti-fatigue action of the sole. Ideal for clean environments and characterized by terrains with a low degree of roughness. Suitable for light industry, logistics, and the tertiary sector.

FIT
9

WEIGHT
550 g (size 42)

AVAILABLE COLOURS
B0 - Grey

SIZES
In stock
On production
Made to order
Tailor made

FIELDS OF USE
> Construction - road works
> Chemical-pharmaceutical industry
> Light industry
> Works at a height
> Logistics
> Tertiary - trades

MAINTENANCE
Store clean footwear in a cool and dry place, away from heat sources and protected from light.
Footwear must be cleaned with soft-bristled brushes and water.
Do not use chemical substances that could damage the materials.

QUANTITY PER CARTON
