Name: CHEMTEX COVERALL	**Code: MC3411K1**	**MC34 CHEMICAL PROTECTION DISPOSABLE CLOTHING**

Description

Chemical protection coverall, made of trilaminate polypropylene fabric, with zipper closure with adhesive flap, elastic hood, cuffs, waistband and ankles. It acts as a barrier against solid particles, even very fine dusts; it is suitable for protection against asbestos, it is repellent against light liquid splashes and toxic product sprays.

- stretch resistant, comfortable and fresh trilaminate fabric.
- avoids heat stress and provides an excellent barrier against solid particles, even very fine dusts.
- repellent against light splashes and toxic and non-toxic product mists.
- easy to dispose after its incineration.

Chemtex is made of liquid and dust repellent, breathable microfibre. A polypropylene layer has been applied on both sides of the microfiber to ensure mechanical strength.

MOQ: 25 pieces per size.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.
