TECHNICAL SHEET

DISPOSABLE RESPIRATORS

High-eff respirator FFP3 NR carbon w/v

FA1441

PACK

10 pieces.

FEATURES

High-Efficiency Disposable Anti-Particulate and Anti-Odor Respirator, equipped with an exhalation valve and integral seal, ensures reliable protection against solid and liquid aerosols containing harmful substances at concentrations up to 50 TLV. The wide, circular cup-shaped facepiece, contoured in the upper area, offers a comfortable fit without restricting internal space, ensuring easy breathing and optimal comfort. The increased filter surface area ensures high filtration capacity, while the exhalation valve reduces breathing resistance and promotes the dissipation of water vapor, even during intense activities. The pre-formed nose bridge, with a flexible nose clip and soft internal foam, ensures a perfect seal on any face and compatibility with other PPE. The integrated activated carbon layer prevents irritation and discomfort caused by low concentrations of organic vapors and acid gases, which may accompany solid and liquid aerosols. Latex-free. The integral seal along the inner edge ensures a secure fit, while the reinforced, adjustable, tear-resistant elastic straps, with four front attachment points, allow for a stable and fully customizable fit.

DETAILS

- Disposable, practical, and hygienic, ideal for single use;
- High-efficiency particulate protection, effective against dusts, mists, and suspended particles;
- Pre-formed nose bridge with flexible nose clip, for a better fit on the face;
- Exhalation valve, reduces breathing resistance and moisture build-up;
- Ergonomic design, ensures a perfect facial seal and reduces leaks;
- Reinforced, tear-resistant, adjustable elastic strap with 4 front attachment points, for a stable, fully customizable fit;
- Latex-free.

PERFORMANCE

FFP3 NR

FFP3:

Nominal Protection Factor: 50

Operational Protection Factor: 30

NR: Non-reusable

SIZES

ONE SIZE

On production
Made to order
Tailor made

FIELDS OF USE

> AGRICULTURE - GARDENING - FORESTRY

> FOOD - CLEANING - HOSPITAL

> CONSTRUCTION - ROAD WORKS

> CHEMICAL-PHARMACEUTICAL INDUSTRY

> HEAVY INDUSTRY

> PETROCHEMICAL INDUSTRY

> TERTIARY - TRADES

MAINTENANCE

Store in a cool and dry place, away from heat sources and protected from light. The device is disposable and maintenance-free.

QUANTITY PER CARTON

200

CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.
