

FILTER RESPIRATORS

757-N ABEK1P3 R D filter CLIMAX

FA1535

PACK

6

FEATURES

Combined filter designed to offer complete protection against a wide range of contaminants: organic, inorganic, acid vapors, ammonia and derivatives, as well as solid and liquid particles such as fine dust, fumes, and dangerous aerosols. Organic gases and vapors with a boiling point > 65 °C; Gases and vapors of inorganic compounds; Sulfur dioxide and other acid gases and vapors; Ammonia and ammoniacal organic derivatives; Particulates. Reusability and clogging test resistance ensure prolonged and safe use, maintaining high performance even in harsh conditions. They are designed to handle polluted environments and with an oxygen content greater than 19.5%. The assembly does not provide breathable air, but purifies the existing air when it passes through the filter.

DETAILS

- Combined filter designed to provide comprehensive protection against a wide range of contaminants: organic, inorganic, acid vapors, ammonia and derivatives, as well as solid and liquid particles such as fine dust, fumes, and dangerous aerosols.

IMPORTANT

Suitable for FA1530 - CLIMAX 800 Half Mask and FA1541 - CLIMAX 732-N Mask

SIZES

ONE SIZE

- In stock
- On production
- Made to order
- Tailor made

FIELDS OF USE

- > Agriculture - gardening - forestry
- > Construction - road works
- > Chemical-pharmaceutical industry
- > Light industry
- > Heavy industry
- > Petrochemical industry

MAINTENANCE

Store in a cool and dry place, away from heat sources and protected from light.

QUANTITY PER CARTON

168

CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.
