

Name: Dust kit X-PLORE 3500 + 2 filters	Code: FA1633	FA16 RESPIRATORY PROTECTION - DRAEGER HALF FACE MASKS
--	---------------------	--

Description

Twin filter half mask with bayonet connection made of innovative PPE 3500 mask, which combines hypoallergenic properties with excellent chemical resistance and ensures an optimal fit even with eyeglasses. Thanks to its self-centring and adjustable retention system it provides a perfectly stable fit to the head. Suitable for all needs.

The half mask features a head harness in soft plastic material with smooth edges and four elastic straps adjustable in length, to ensure a perfect fit to the face.

Features quick-fit bayonet filter connection allowing for an even weight distribution and a wide field-of-vision.

Total weight: approx. 95 g.

The kit is provided with 2 filters Pure P3 R.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.

Category III	Colours	Available Sizes Made to order: U In stock:
Quantity/Carton 1	EC Standards EN 140 EN 143	Important Information The half mask's maximum storage life is 6 years from date of manufacture. Should be stored in dry dust-free conditions, not liable to deformation. Cleaning the mask immediately after use will help prevent premature wear. Do not use any solvents such as acetone, alcohol, benzol, spirits, trichloroethylene, etc. Clean all its parts with a cloth, warm water and a neutral detergent, following carefully the washing instructions. Then rinse thoroughly under running water.
