---	---------------------	--

**Description**

The unit features a display with warnings and audible notifications for battery and filter conditions, allowing the user to monitor it effectively. Smart reactive PPE for the user: real time diagnostics monitors the system twice per second, allowing the user to identify any problem of the unit. The battery on the Powercap Infinity is completely rechargeable, and lasts 8 hours. The key items of the unit can be replaced by the user, assuring easy maintenance and cleaning. The unit is obtained through work with aerodynamics experts in motor sports, prevents any visor fogging over and the common undesired effect of dryeyes, which might happen with positive pressure respirator devices.
