FA23 RESPIRATORY PROTECTION - JSP POWERED RESPIRATORS

Description

Ú[, ^\ôa í ÁBara, ~ï ÁP (Patent Granted) is a lightweight, firm fitting, ergonomically designed positive pressure respirator, designed to protect the user from dust and most airborne particulate pollutants. Complete with faceshield, two TH1P filters, one battery pack, and one charging dock.

- Powered Air: Respiratory protection with Assigned Protection Factor 10 (UK classification) equivalent to FFP2. Mask gives a cooling, comfortable supply of filtered air at 160 litres per minute eliminating breathing resistance and visor misting.
- Bump Cap Head Protection: The cap uses JSP Hardcap A1Éï Ábump cap technology, exceeding the A1 version of EN 812. The cap is also easily removable and machine washable for hygiene purposes thanks to the patented connection mechanism of the cap and visor
- Impact Eye & Face Protection: Eye and face impact protection, ideal for working in environments where there is a danger of flying particles.
- Easy To Use Charging Dock: Each battery lasts 8 hours, one can be charged whilst the other is in use. The battery can also be charged whilst still attached to the cap, and the whole unit can be conveniently sat in the charging dock, ideal for overnight charging.
- Visor: Attached by rivets, 1mm thick polycarbonate with aluminium edges providing impact protection
