

DARK LENS GLASSES

STREET glasses

FB1431

DETAILS

- Sporty design, for enhanced ergonomics and comfort;
- Comfort nose bridge, improves fit and reduces pressure points;
- Lightweight and practical, ideal for continuous use;
- Dark lens, suitable for high-luminosity environments.

PERFORMANCE

- Lens marking 5-3.1 SIR 1 FT CE.
- Frame marking SIR EN166 FT CE.
- Light transmission from 8% to 17.8%.
- UV 400 protection.

FEATURES

Single-lens safety glasses with a sporty design, made of polycarbonate, feature a wraparound design that ensures wide visibility and comfort thanks to the ergonomic nose bridge. The tinted lens provides protection against solar radiation and UV 400, with light transmission between 8% and 17.8%, ideal for environments with intense light. Designed for continuous use, they are impact resistant and provide reliable protection against particles and extreme temperatures. Lightweight and practical, they are the perfect solution for those seeking safety and comfort in conditions of intense light exposure. Ideal for use in activities such as metal cutting and operations near furnaces, where the light is particularly intense.
