

FALL ARREST

Polyamide triple twisted rope lanyards

FD1519

DETAILS

Triple-braided polyamide cord with 2 loops. Length 1 m.

FEATURES

Lanyard made of triple-braided polyamide, designed to ensure strength, stability, and durability in at-height operations. Equipped with two reinforced loops, it facilitates connection to anchor systems or harnesses, ensuring versatile use and compliance with safety standards required in professional work. The lanyard has a length of 1 meter, ideal for activities requiring a compact and controlled connection point, reducing bulk and facilitating operator maneuvers during operations in hazardous locations.
