TECHNICAL SHEET

FALL ARREST

20 m rope

FD1523

DETAILS

20 m length of polyamide triple-braided rope, 15 mm diameter, fitted with loops.

FEATURES

A length of rope designed for work at height and operations requiring a strong and reliable connection. Made from triple-braided polyamide, it ensures robustness, stability, and a long lifespan even under intensive use. The 15 mm diameter ensures excellent mechanical performance and a firm grip during maneuvers. The rope is 20 meters long and is equipped with loops, which facilitate connection to anchoring devices or personal protective equipment systems, making it suitable for various applications in work at height.

IMPORTANT

Recommended for use with SIR fall arrest systems.
