PETZL

GRILLON HOOK adjustable lanyard 2 m

FD2117

DETAILS

• Lunghezza corda: 5 mt Lanyard with a progressive adjustment system, allowing for precise and continuous adjustment, improving stability during work;

• Lunghezza corda: 5 mt Equipped with a HOOK connector, allowing for quick and secure attachment, facilitating operations even at height;

• Lunghezza corda: 5 mt Dual use on the harness's side attachment points, offering balanced load distribution, increasing safety and comfort.

• Lunghezza corda: 5 mtCord lehgth: 3 meters

FEATURES

Lanyard equipped with a progressive adjustment system, designed to enable precise, stable, and secure work positioning. Thanks to the HOOK connector, the operator can make fluid and precise adjustments, adapting the lanyard's length to operational needs without losing control of the position. The device is designed for use in a double configuration on the harness's lateral attachment points, allowing the load to be distributed across the waist belt and improving comfort, balance, and stability during work at height or in work positioning situations on structures. Robust, reliable, and easy to maneuver, it is an ideal solution for professional work requiring safety and precision.
