TECHNICAL SHEET

PETZL

VERTEX helmet orange

FD2147

DETAILS

- Suitable for work at height and on the ground, it offers versatile use, reducing the need for different PPE;
- Fabric harness with six-point attachment, ensures high stability and comfort by uniformly distributing weight;
- Enclosed outer shell, ensures effective protection against electrical hazards, molten metal, and flames;
- Chin strap with adjustable resistance, allows the safety level to be adapted to different operating conditions;
- Weight 490 g, reduces fatigue and discomfort during prolonged use.

FEATURES

A protective helmet designed for work at height and on the ground, engineered to ensure high levels of safety and comfort. It features an internal textile suspension system with a six-point attachment, which ensures uniform weight distribution and optimal stability on the head even during intense movements. The closed outer shell offers effective protection against electrical hazards, molten metal splashes, and flames, making the helmet suitable for industrial environments and complex construction sites. The adjustable-strength chin strap allows for adapting the retention level based on operational conditions, increasing both safety and comfort. Weighing only 490 grams, the helmet is light and comfortable even for prolonged use.
