TECHNICAL SHEET

FIRST AID

Ready-to-use ice pack

FH1236

DETAILS

Ready-to-use ice pack, useful for injuries or minor bleeding.

FEATURES

Cooling first aid accessory, ideal for use in cases of trauma, contusions, sprains, or minor bleeding. When applied to the affected area, it helps reduce pain, swelling, and bleeding, facilitating a rapid and effective initial intervention. It maintains a cold temperature for approximately 25–30 minutes, depending on the external temperature, ensuring a prolonged and consistent effect on the affected area.
