Name: ACTIVE GRIP 325 GLOVE	Code: MA1432H0	MA14 MECHANICAL PROTECTION GLOVES - 7 C5H98 H9LH-@
------------------------------------	-----------------------	---

Description

Glove made of nylon knit.
Finish: Double micro-rough latex coating.
Cuff: Elastic knit.

Towa Corporation's Microfinish technology allows for high grip in a wide variety of wet and oily conditions, using a soft, flexible compound on the glove surface with thousands of microscopic cells that create a vacuum when they come into contact with the surface, dispersing fluids and allowing the entire glove surface to grip the object.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.
