

COATED TEXTILE GLOVES FOR MECHANICAL PROTECTION

JUNAS glove

MA1434

MATERIALS

Nylon

CUFF

Stretch knit fabric

INNER

Fleece

COATING

Full smooth latex coating & 3/4 sandblasted latex coating.

FEATURES

Nylon gloves with a double latex coating: a smooth full finish and a second 3/4 sandblasted coating that improves grip and durability. The fleeced interior ensures thermal comfort and a soft feel, while the elasticated knit wrist guarantees a good fit and proper stability during use. They offer good mechanical strength and cold protection, making them suitable for activities that require robustness, effective grip, and comfort even in low-temperature conditions.
