Name: CRYOGENIC glove CRYOPLUS-2.1 38cm		Code: MA1722P0	MA17 COLD PROTECTION GLOVES
<p>Description</p> <p>Gloves made of special textilecomposite laminated with polyurethane membrane Lining: Soft polyester fleece Length: 38 cm</p> <p>Fully waterproof glove to protect hand and forearm in operations involving Liquid Nitrogen (or other cryogenic gases). The glove is made entirely of a special composite fabric laminated with a polyurethane membrane. Inside there is a special membrane that allows perspiration but does not allow liquids to penetrate inside. Protection from the cold is provided by a soft polyester fleece inner lining. Made of composite materials specially designed for this application, it keeps hands warm and dry even over long periods of use. The multilayer construction allows a high level of thermal protection, flexibility and dexterity at -60°C.</p> <p>The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.</p>
