

TECHNICAL SHEET

FOOD INDUSTRY

PRELUDE moccasin

MB1313K1

UPPER

Breathable and wear-resistant microfiber. Its ease of cleaning and maintenance make it a practical choice for everyday use.

LINING

Polypropylene non-woven fabric

TOECAP

Fiberglass, lightweight and non-magnetic, offers high protection against impacts and compressions, ensures good thermal insulation.

PUNCTURE-PROOF

/

FOOTBED

Anatomical Air-mix in multi-perforated EVA, antistatic with anti-shock properties. The thickness varies from 3 mm at the front to 10 mm at the heel. Ensures comfort even during prolonged use. Removable footbed.

SOLE

PU/PU, composed of two layers of polyurethane of different densities, offers advantages such as antistatic properties, impact absorption, and resistance to viscous substances. This type of sole improves safety by reducing the accumulation of static electricity, provides comfort while walking by reducing stress on the joints.

FEATURES

METAL FREE Shoes in the food industry range are made from materials that are easy to sanitize, and are also equipped with slip-resistant soles.

REMARKS

Given the current mixed stock, it is possible that this item will be delivered with the restyled version (as shown in photo) and former version.
