

FOOD INDUSTRY

KARIM FOBIA ankle high shoe

MB1319

UPPER

Breathable and wear-resistant microfiber. Its ease of cleaning and maintenance make it a practical choice for everyday use.

LINING

Polypropylene non-woven fabric

TOECAP

Fiberglass, lightweight and non-magnetic, offers high protection against impacts and compressions, ensures good thermal insulation.

PUNCTURE-PROOF

/

FOOTBED

Anatomical Air-mix, made of multi-perforated EVA, antistatic with shock-absorbing properties. The thickness varies from 3 mm at the front to 10 mm in the heel area. It ensures comfort even during prolonged use.

SOLE

PU/PU, composed of two layers of polyurethane of different densities, offers advantages such as antistatic properties, impact absorption, and resistance to viscous substances. This type of sole improves safety by reducing the accumulation of static electricity, provides comfort while walking by reducing stress on the joints.

FEATURES

METAL FREE Work footwear that offers safety, comfort, and practicality. Easy to clean yet wear-resistant, it keeps the foot cool and dry, protecting it from impacts and compressions. Thanks to the multi-perforated EVA insole, it ensures cushioning and comfort even during long working hours.
