Name: METATARSO shoe	Code: MB1645Z9	MB16 FOOTWEAR - MERTAL TOP SERIES
-----------------------------	-----------------------	--

Description

Ankle high shoe with printed grain leather upper, equipped with metatarsal protection, glass fibre toecap and PS type composite pruncture-proof midsole with constant thickness.

The PU/PU sole, thanks to its special tread pattern and numerous horizontal channels, guarantees a highly draining effect and is characterised by high flexibility. The side cleats maximise traction on uneven ground, while those in the heel area help stabilise the heel. The mid-sole area, with a groove, is designed to enhance grip on ladders (LG requirement).

Non-slip SR grade.

The insoles, made of multi-punched EVA material, have variable thickness anti-shock properties: 3 mm in the front and 10 mm in the heel area.

Antistatic.

The 3D TEX (Airmesh) polyester lining is specially designed to allow ventilation of the foot and thus reduce the sweating effect.

Main features:

- The particularly wide and comfortable shape assures robustness;
- Sculpted design that adapts to the roughness of the ground;
- Shock-absorbing area;
- Heel area designed to facilitate walking;
- Adapted to all types of activities in industrial sectors.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.

Category II	Colours BLACK	Available Sizes In stock: 38 - 48
Quantity/Carton 10	EC Standards EN ISO 20345  Safety Class:S3S M FO LG SR	Important Information The footwear should be stored in a cool dry place, far from heat sources and direct light.
