

Name: MALIBU low shoe	Code: MB1654B0	MB16 FOOTWEAR - MERTAL TOP SERIES
------------------------------	-----------------------	--

Description

Low shoe with S1P suede upper, with steel toe cap and puncture-proof with constant thickness. The PU/PU sole, thanks to its special tread pattern and numerous horizontal channels, guarantees a highly draining effect and is characterised by high flexibility. The side cleats maximise traction on uneven ground, while those in the heel area help stabilise the heel. The mid-sole area, with a groove, is designed to enhance grip on ladders (LG requirement).

Non-slip SR grade.

The footbed, made of multi-perforated EVA material, has variable thickness and anti-shock properties: 3 mm in the front and 10 mm in the heel area. Antistatic.

The 3D TEX (Airmesh) polyester lining is specially designed to allow ventilation of the foot and thus reduce the sweating effect. Equipped in the heel area with a microfibre insert to increase abrasion resistance and, at the same time, to prevent the foot from slipping off.

Main features:

- The particularly wide and comfortable shape assures robustness;
- Sculpted design that adapts to the roughness of the ground;
- Shock-absorbing area;
- Heel area designed to facilitate walking;
- Adapted to all types of activities in industrial sectors.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.
