

ULTRA LIGHT BIKE low shoe MB2030

UPPER

Polyester mesh promotes air circulation, ensuring breathability and coolness inside the footwear. A TPU protective bumper in the toe area ensures extra durability for the upper, protecting it from scratches and abrasions.

CLOSING

Laces with reinforced eyelets and slip-on system.

LINING

DRY PLUS in tight-weave polyester

TOECAP

Fiberglass, lightweight and non-magnetic, offers high protection against impacts and compressions, ensures good thermal insulation.

PUNCTURE-PROOF

PS type composite, non-magnetic, antistatic, and thermal insulating. It offers maximum performance in terms of puncture resistance, full sole protection, and maximum flexibility.

FOOTBED

Bi-component material with a polyurethane foam shell and variable-thickness Memory PU: 4 mm in the front and 9 mm in the heel area, with significant shock-absorbing properties. Antistatic. Pre-shaped in the medial zone, it supports the foot's accommodation by adapting to its natural anatomy.

SOLE

EVA/Rubber, ergonomic, ultralight, soft, and flexible. The ultralight EVA midsole offers comfort and flexibility, while the shock absorption system in the midfoot area helps reduce fatigue during use. The rubber outsole improves anti-slip performance, especially on wet surfaces. The flat profile provides stability and support during walking and stationary work, making the footwear ideal for clean environments, smooth surfaces, and terrains with a low level of roughness. The high-performance rubber resists oils and hydrocarbons.

FEATURES

ESD METAL FREE Sporty look and lightness, the ULTRA LIGHT prove

particularly suitable for prolonged use thanks to the support and anti-fatigue action of the sole. Ideal for clean environments and terrains with a low degree of roughness. Suitable for light industry, logistics, and the tertiary sector.
