

ULTRA LIGHT RENAISSANCE low shoe MB2033

UPPER

Seamless mesh and extra breathable polyurethane ensure greater air circulation, keeping feet cool and dry even during prolonged use. A TPU protective bumper in the toe area ensures extra durability of the upper, protecting it from scratches and abrasions.

CLOSING

Laces with reinforced eyelets.

LINING

3D-TEX polyester with honeycomb weave for high breathability. Ergonomic TPU heel support.

TOECAP

Fiberglass, lightweight and non-magnetic, offers high protection against impacts and compressions, ensures good thermal insulation.

PUNCTURE-PROOF

PS type composite, non-magnetic, antistatic, and thermal insulating. It offers maximum performance in terms of puncture resistance, full sole protection, and maximum flexibility.

FOOTBED

Bi-component material with a polyurethane foam shell and variable-thickness Memory PU: 4 mm in the front and 9 mm in the heel area, with significant shock-absorbing properties. Antistatic. Pre-shaped in the medial zone, it supports the foot's accommodation by adapting to its natural anatomy.

SOLE

EVA/Rubber, ergonomic, ultralight, soft, and flexible. The ultralight EVA midsole offers comfort and flexibility, while the shock absorption system in the midfoot area helps reduce fatigue during use. The rubber outsole improves anti-slip performance, especially on wet surfaces. The flat profile provides stability and support during walking and stationary work, making the footwear ideal for clean environments, smooth surfaces, and terrains with a low level of roughness. The high-performance rubber resists oils and hydrocarbons.

FEATURES

ESD METAL FREE Sporty look and lightness, the ULTRA LIGHT prove particularly suitable for prolonged use thanks to the support and anti-fatigue action of the sole. Ideal for clean environments and terrains with a low degree of roughness. Suitable for light industry, logistics, and the tertiary sector.
