

SPECIAL PROTECTIONS

DIELECTRICAL boot 9726

MB2416

UPPER

Vulcanized rubber ensures resistance to heat, acids, and wear. This material offers high and long-lasting protection, ideal for demanding work environments.

LINING

Special dielectric grade polyester

TOECAP

Steel, offers high protection against impacts and compressions.

PUNCTURE-PROOF

/

FOOTBED

Anatomical and breathable, it provides ergonomic support and comfort during prolonged use.

SOLE

Nitrile rubber resistant to 300°C contact heat (HRO). Slip-resistant and resistant to oils and hydrocarbons, it offers strong grip on wet surfaces.

FEATURES

Electrical insulating boot, tested at a test voltage of 5 kV for 3 minutes and at a withstand voltage of 10 kV, suitable for work on electrical installations with rated voltage up to 1000 V AC and 1500 V DC.

WEIGHT

1250 g (size 42)

AVAILABLE COLOURS

EA -
Yellow/green

SIZES

In stock
On production
Made to order
Tailor made

FIELDS OF USE

- > Agriculture - gardening - forestry
- > Construction - road works
- > Petrochemical industry
- > Works at a height

MAINTENANCE

Store clean footwear in a cool and dry place, away from heat sources and protected from light.
Footwear must be cleaned with soft-bristled brushes and water.
Do not use chemical substances that could damage the materials.
