

SIR FUTURE  
**DRAGON low shoe**  
**MB3019Z9**

**UPPER**

Action Nubuck leather, soft and velvety to the touch, extremely resistant to wear. The protective BUMPER in the toe area ensures extra durability of the upper, protecting it from scratches and abrasions.

**CLOSING**

Faster System

**LINING**

3D-TEX polyester with honeycomb weave for high breathability. Ergonomic TPU heel support.

**TOECAP**

Aluminum, lightweight and resistant, offers high protection against impacts and compressions.

**PUNCTURE-PROOF**

PS type composite, non-magnetic, antistatic, and thermal insulating. It offers maximum performance in terms of puncture resistance, full sole protection, and maximum flexibility.

**FOOTBED**

E-TPU Responder®, special compound that binds thousands of E-TPU particles together. The patented Responder® technology absorbs shocks and reduces muscle fatigue. Antistatic, with an ergonomic profile, it features holes along its entire surface. Such technical characteristics allow the foot to remain cool and dry, ensuring breathability. Removable footbed.

**SOLE**

E-TPU Responder®/Rubber. Midsole made of E-TPU Responder®, a high-performance compound that uses the patented Responder® technology. Thousands of E-TPU (closed-cell expanded polyurethane) particles, endowed with exceptional elasticity and resilience, are bound together by a stable, high-strength compound. This combination creates exceptional reactive cushioning, lightness, and flexibility across the entire foot surface, ensuring excellent performance even after prolonged and intense use. The rubber outsole, thanks to its deep longitudinal grooves, ensures superior grip on any type of surface. The

water-shedding lugs and deep longitudinal grooves guarantee additional stability, protection, and liquid drainage.

**FEATURES**

ESD Designed to ensure exceptional performance in a wide range of working situations and environments, SIR FUTURE Powered by Responder® Technology stands out for its technological innovation and design, representing the optimal choice for prolonged use and for performing repetitive tasks in an upright position. Suitable for: light industry, logistics and goods handling, service sector.

**REMARKS**

The original insole supplied with the shoe can be replaced, without invalidating the EN ISO 20345 standard, with the SENSOPEDES orthopaedic insole from Franz Seidl GmbH, compliant with DGUV 112-191 standard. For further information, please contact: Franz Seidl GmbH Orthopaedic Footwear Technology | Roritzerstraße 4 | 93047 Regensburg, Germany | Phone: +49 (0) 94151598 | info@schuh-seidl.de | www.schuh-seidl.de
