Description

Low, lace-up footwear made with a grain leather upper and PS-type composite midsole and fibreglass toecap. The two-component sole made of polyurethane and rubber provides a high shock-absorbing effect.

The nitrile rubber tread, which is resistant to contact heat, provides a strong grip on wet surfaces, while the middle area is abrasion-resistant and equipped with cleats to increase grip on ladders.

The Memory PU and polyurethane foam insole with high density and variable thickness provides a cushioning effect and ensures high shock resistance.

Antistatic. The DRY PLUS tight-weave polyester lining with extra protection in the heel areas has a high draining power and significantly reduces the overheating effect from prolonged use.

Main features:

- Additional protection on the instep
- Reinforced laces
- TPU overcap for increased abrasion resistance in the toe area
- Rear reinforcement for increased abrasion resistance and heel support
- Endless side grooves for drainage of liquids
- Deep, sharp-edged cleats for increased grip and self-cleaning
- Ladder Grip System (LG)
