

MAXIMUM

NORDISK ankle high shoe

MB3326

UPPER

High-quality full-grain leather, highly durable and wear-resistant. The TPU toe cap offers extra protection for the leather from impacts and abrasions. Equipped with a thickened TPU rear reinforcement for maximum heel stability and protection for the back of the foot.

CLOSING

Faster, a micrometric lacing system with a metal cable that allows you to adjust lace tension evenly, ensuring a comfortable and customized fit, even when wearing gloves.

LINING

DRY PLUS in tight-weave polyester with a waterproof yet breathable WR lining designed to significantly reduce the overheating effect from prolonged use, keeping feet cool and dry. The 200g 3M® Thinsulate is a highly water-resistant material, offering exceptional thermal insulation, ensuring warmth without adding weight, and maintaining breathability.

TOECAP

Fiberglass, lightweight and non-magnetic, offers high protection against impacts and compressions, ensures good thermal insulation.

PUNCTURE-PROOF

PS type composite, non-magnetic, antistatic, and thermal insulating. It offers maximum performance in terms of puncture resistance, full sole protection, and maximum flexibility.

FOOTBED

High-density polyurethane foam and Memory PU of variable thickness. The insert in the heel area provides a cushioning effect and ensures high shock resistance. Antistatic.

SOLE

The dual-component polyurethane and rubber offers excellent shock absorption. The nitrile rubber outsole, resistant to contact heat up to 300°C (HRO), ensures maximum grip on wet surfaces. The midfoot area is abrasion-resistant and equipped with lugs to increase grip on ladders, also complying with LG (Ladder Grip) certification. Furthermore, the

outsole features deep, sharp-edged lugs for enhanced grip, and infinity-type lateral channels for liquid drainage. Self-cleaning.

FEATURES

ESD Designed for harsh environments in the presence of hydrocarbons and chemicals, uneven and particularly rugged terrain. The MAXIMUM prove to be particularly robust and wear-resistant. They offer cold insulation (CI) and heat insulation up to 150°C (HI). Suitable for: heavy industry, petrochemical and metallurgical industry, welding work, and work at height.
