

FOOTBEDS

MULTI-HOLE footbed

MB9818

DETAILS

The insole is made of multi-perforated EVA material with anti-shock properties and variable thickness: 3 mm at the front and 10 mm in the heel area. Polyester lining. Antistatic.

FEATURES

The insole is made from multi-perforated EVA material, designed to ensure lightness, comfort, and breathability. Its variable thickness promotes flexibility and natural foot mobility, as well as optimal impact absorption. The polyester lining provides durability and a pleasant feel on contact, while the antistatic property contributes to safety in work environments.

QUANTITY PER CARTON

50

IMPORTANT

Insole for use on the models of the NEW FOBIA series
