

FOOTBEDS

MEMORY foam footbed

MB9819

DETAILS

The insole is constructed from a bi-component material, featuring a polyurethane foam shell and variable-thickness Memory PU: 4 mm in the forefoot and 9 mm in the heel, providing significant anti-shock properties. Antistatic. Pre-formed in the medial zone, it supports the foot's positioning by adapting to its conformation.

FEATURES

Insole made from bi-component material, composed of a polyurethane foam shell and variable-thickness Memory PU, to ensure significant anti-shock properties. It is antistatic and preformed in the medial area, offering anatomical support that conforms to the foot's shape, improving comfort and stability.

MAINTENANCE

Store in a cool and dry place, away from heat sources and protected from light.

IMPORTANT

Insole for use with Ultra Light series models.

QUANTITY PER CARTON

50
