

FOOTBEDS

OVERCAP footbed

MB9824

DETAILS

Polyurethane foam

FEATURES

Insole designed for Overcap Series footwear, made from high-resilience polyurethane foam, ideal for ensuring support and comfort even in heavier footwear. The variable thickness structure — 4.5 mm in the forefoot area and 9 mm in the heel area — provides differentiated support, promoting flexibility in the forefoot and superior shock absorption in the rearfoot. The lined and perforated surface in the footbed area improves breathability and helps maintain a more comfortable internal climate. Thanks to its remarkable anti-shock properties and long durability, the insole offers reliable support over time, while its antistatic feature also makes it suitable for work environments where it is necessary to reduce the accumulation of electrostatic charges.

QUANTITY PER CARTON

100

AVAILABLE COLOURS

● Z9 - Black

SIZES

	In stock
	On production
	Made to order
	Tailor made

FIELDS OF USE

- > Agriculture - gardening - forestry
- > Food - cleaning - hospital
- > Construction - road works
- > Chemical-pharmaceutical industry
- > Light industry
- > Heavy industry
- > Petrochemical industry
- > Works at a height
- > Logistics
- > Tertiary - trades

MAINTENANCE

Store in a cool and dry place, away from heat sources and protected from light.
