FOOTBEDS

# URANIA BSF footbed

## MB9830Z9

### DETAILS

The URANIA insole is composed of variable-thickness polyurethane foam, with a top layer of Memory Foam, laminated with polyester microknit fabric. Pre-formed in the medial zone, it supports the foot's housing, adapting to its conformation. Antistatic, it features breathable perforations in the forefoot area and ventilation channels on the underside to promote air circulation during use.

### FEATURES

Footbed composed of variable-thickness polyurethane foam, with a top layer of Memory Foam laminated with polyester microknit fabric for superior comfort. It is pre-formed in the medial zone, offering anatomical support that adapts to the foot's shape. Equipped with forefoot breathability perforations and ventilation channels on the underside, it promotes air recirculation during use, minimizing heat buildup and sweating. Features antistatic properties.

### IMPORTANT

Insole for use with Urania BSF series models.
