TECHNICAL SHEET

SYMBOL STRETCH SERIES

SYMBOL STRETCH jacket

MC1139Z9

MATERIALS

Brushed stretch twill with a soft-touch effect, 97% cotton, 3% spandex, with water repellent and anti-stain treatment.

WEIGHT

240 g/m²

FEATURES

Work jacket in stretch twill fabric with water-repellent treatment, ideal for dynamic and everyday use. The garment combines comfort, functionality, and technical style in a versatile and high-performance item. Lightweight, durable, and designed to offer maximum freedom of movement, with water-repellent and dirt-resistant treatment, it protects the garment from light rain and stains, keeping it clean longer. The stretch fabric promotes the operator's freedom of movement, allowing for dynamic postures during work activities. The ergonomic fit and pre-shaped sleeves follow the body's natural movements, making it ideal for workers constantly on the move. The contrasting collar adds a distinctive touch, while the two chest pockets with contrasting flaps (for color variant B8 only, the flaps are made of cationic fabric), expandable gussets, and a pen holder on the left side offer practicality and organization. The adjustable cuffs with buttons allow for a personalized closure, adapting to the operator's needs. The reflective inserts on the back increase the garment's visibility. The triple stitching ensures greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions.

DETAILS

- Contrasting collar;
- 2 chest pockets with contrasting flaps (for color variant B8 only, the flaps are made of cationic fabric) and expandable gussets and a pen holder on the left side, to ensure quick and easy access to smaller items;
