

FUSTIAN SERIES

FUSTIAN trousers w/bands

MC1621

MATERIALS

100% sanforized fustian cotton

GRAMMAGE

330 g/m²

FEATURES

Work trousers made of fustian, a resistant and comfortable fabric, characterized by a diagonal structure that ensures robustness and durability over time. The sanforized treatment reduces the risk of shrinkage after washing, ensuring dimensional stability. Thanks to its pure cotton composition, it offers breathability, natural comfort, and a pleasant feel, ideal for workwear that requires reliability and protection. Thanks to its excellent thermal properties, the Fustian series ensures comfort even in the colder months. The 4 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The elasticated waist with an adjustable elastic waistband ensures comfort and adaptability. The double reflective band sewn on the leg hem increases the operator's visibility, even in low-light conditions. The double interlocked seams on the inner and outer leg and the reinforcement bar tacks ensure robustness and durability over time, even in the most demanding working conditions.

CLOSING

Button and zip.

REFLEX

Double reflective bands on the bottom of the leg.
