TECHNICAL SHEET

GEMINI SERIES

GEMINI GUARD SHORT trousers

MC2050Q5

MATERIALS

4-way-stretch fabric 92% Nylon, 8% spandex, contrast fabric in Ripstop Stretch 57% cotton, 40% polyester, 3% spandex on lower leg. Inserts in cationic ripstop made of 94% polyester and 6% spandex on knees. Water repellent treatment.

WEIGHT

250 g/m²

FEATURES

High-performance work pants, made from versatile bi-stretch fabric that ensures excellent freedom of movement and prolonged comfort even during the most dynamic activities. Strategic inserts in stretch ripstop and cationic ripstop ensure superior resistance to tears and abrasions, while maintaining lightness and flexibility. The design with contrast details enhances the garment's aesthetic and visually identifies reinforced areas. The bidirectional elasticity of the bi-stretch fabric contributes to an ergonomic fit, reducing tension during movements and improving overall performance in high-stress work environments. The water repellent treatment applied to the outer surface helps repel moisture and stains, improving protection in variable environmental conditions and extending the fabric's lifespan. The reduced leg length ensures a more accurate fit when it is necessary to opt for a larger size to fit the waist, thus preventing the leg length from being excessive. The 8 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. Reinforced seams ensure greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. Reinforcement bartacks, applied at points subject to greater stress, increase the garment's resistance and enhance its aesthetic finish. Reflective inserts on pockets, thigh, and back of the leg further increase the garment's visibility.

DETAILS

- 2 front pockets, with an additional small pocket closed by zipper on the right, to ensure quick and convenient access to smaller items;
- Technical pocket with pen holder and tape measure holder on the right, closed by flap and velcro;
- Technical pocket with retractable badge holder and small pocket closed with zipper on the left, allows storing bulkier items, without the risk of them falling out;
- 2 back pockets;
- Knee reinforcement, to ensure resistance to abrasion and tearing;
- Reinforcement bar tacks, applied in points subject to tension or traction to increase the durability of the garment and improve its aesthetics;
- Double stitching in points most subject to stress and wear, to ensure greater resistance and durability.

CLOSING

Zip, rivet button, and Velcro.

REFLEX

Reflective inserts on pockets, thigh, and back of the leg.

AVAILABLE COLOURS

- C4 - GREY
- Q5 - DARK BLUE
- Z9 - BLACK

SIZES
