250 g/m²

FEATURES

High-performance work shorts, made from versatile 4-way-stretch fabric that ensures excellent freedom of movement and prolonged comfort even during the most dynamic activities. Strategic inserts in stretch ripstop and cationic ripstop provide superior resistance to tears and abrasions, while maintaining lightness and flexibility. The design with contrast details enhances the garment's aesthetic and visually identifies reinforced areas. The 4-way-stretch fabric contributes to an ergonomic fit, reducing tension during movement and improving overall performance in high-stress work environments. The water-repellent treatment applied to the outer surface helps repel moisture and stains, improving protection in variable environmental conditions and extending the fabric's lifespan. The 8 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. Reinforced seams ensure greater mechanical resistance and long-term durability, making the garment reliable even under intensive use conditions. Reflective inserts on the front closure, pockets, and thighs further increase the garment's visibility.
