HIGH VISIBILITY CLOTHING

HI-VIS GEMINI GUARD trousers

MC2061L1

MATERIALS

4-way stretch fabric 92% polyester, 8% spandex, contrast fabric in cationic Ripstop 94% polyester, 6% spandex.

WEIGHT

240 g/m²

FEATURES

Work trousers made from 4-way stretch fabric, designed to offer maximum protection as well as maximum comfort. Reinforcements in cationic fabric and tear-resistant Ripstop ensure greater resistance to wear and tear, while the elasticated material ensures excellent freedom of movement, allowing the operator to assume various positions during activity. Certified Class 2 for high visibility, the garment ensures a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The pre-shaped legs further improve the garment's ergonomics, adapting to the body's morphology and natural movements. Reinforced seams ensure greater mechanical resistance and durability over time, making the garment reliable even under intensive use conditions. Reinforcement bar tacks, applied at points subject to greater stress, increase the garment's resistance and enhance its aesthetic finish. The 7 pockets make it extremely functional and practical, allowing essential tools and objects to always be within reach during work. The heat-sealed and segmented reflective bands optimally adapt to body movements, offering greater comfort and freedom of action.

DETAILS

- 2 front pockets and a small utility pocket, closed with a zipper on the right, to ensure quick and easy access to smaller items, stored without the risk of falling out;
- 4 attachment loops for anchoring holster pockets, removable via velcro, compatible with HOLSTER floating pockets - MC4980
- Technical pocket with retractable badge holder and a small zippered pocket on the left, allowing for storing bulkier items;

- Holster pocket with reinforced panel, tape measure holder and hammer loop on the right;
- Kneepad pocket closed with velcro, compatible with KGUARD kneepads - MC4913;
- Leg hem reinforced with Ripstop anti-wear fabric, for increased durability over time.
- Double stitching in areas most subject to stress and wear, to ensure greater strength and durability.

CLOSING

Zip, rivet button, and Velcro.

REFLEX

Segmented heat-sealed reflective leg hem bands.
