

HIGH VISIBILITY CLOTHING

RUSH trousers**MC2511L1****MATERIALS**

80% polyester, 20% cotton, Twill.

WEIGHT

300 g/m².

FEATURES

Durable, stain-resistant, sturdy, quick-drying, and water-repellent work trousers. Cordura® reinforcements ensure high abrasion resistance in areas subject to friction. Thanks to the material's robustness, the garment offers superior durability and good resistance to oils, greases, and dirt. Certified Class 3 for high visibility, the garment ensures the highest level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The presence of a percentage of cotton, combined with technical fibers, helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The garment is suitable for industrial washing, ensuring high resistance to intensive high-temperature washing cycles and ensuring efficient maintenance, long-term durability, and the preservation of technical performance and fit. Reinforced seams ensure greater mechanical resistance and long-term durability, making the garment reliable even under intensive use conditions. Reinforcement bar tacks, applied in areas subject to greater stress, increase the garment's strength and enhance its aesthetic finish. The 5 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The reflective bands on the legs further contribute to increasing the garment's visibility.

DETAILS

- 2 fixed, easy-access, floating pockets, Cordura-reinforced and equipped with multiple compartments;
- Multifunctional technical pocket closed with flap and velcro on the left leg, with mobile phone pocket with flap and velcro, pen holder and retractable and removable badge holder; ruler pocket on the right leg;
- 2 back pockets closed with flap and velcro;

- Kneepad pockets Cordura®-reinforced;
