TECHNICAL SHEET

SOFTSHELL

DOLPHIN jacket

MC2544C4

MATERIALS

Softshell 96% polyester and 4% spandex with a TPU membrane bonded with hexagonal microfleece with breathable properties.

WEIGHT

320 g/m², padding 120 g/m²

FEATURES

Functional jacket with excellent thermal properties, designed to withstand particularly extreme weather conditions. This jacket is designed to ensure protection and comfort even in the most demanding situations. The Softshell fabric with a TPU membrane ensures softness, breathability, and comfort, while the polyester padding provides effective thermal insulation, maintaining constant body heat even in low temperatures. The modern and ergonomic design, combined with attention to detail and the use of technologically advanced materials, guarantees great freedom of movement, making this jacket ideal not only for work but also for outdoor activities and leisure. Thanks to its multi-layer of high-performance fabrics, the jacket ensures waterproofing while promoting breathability, preventing sweat accumulation and maintaining optimal body temperature, thereby creating a comfortable internal microclimate for the wearer. The jacket features a detachable hood with a zipper and adjustable drawstring, ripstop fabric reinforcements for increased durability, and a chest pocket with a water-resistant zipper. There are two side pockets with anti-snag zippers, an internal mobile phone pocket, an internal zippered pocket, and a dedicated compartment to securely and easily accommodate a tablet up to 10" or large-format items. The 5 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. Furthermore, underarm zippers with Mesh fabric inserts promote breathability and allow for rapid cooling when needed. Reflective inserts applied to the sleeves and hood increase the garment's visibility. This jacket represents the perfect combination of functionality, protection, and style, designed for those who face extreme conditions without compromising on comfort.

DETAILS

- Detachable hood with zip, adjustable with a drawstring, to remove it when not in use and adjust it for optimal protection against wind and rain;
- Ripstop fabric reinforcements, for guaranteed strength and durability;
- Chest pocket with water-resistant zip, to store small valuables without the risk of them falling out or getting wet;
- 2 side pockets with anti-snag zippers;
- Internal cell phone pocket, internal zippered pocket, and internal pocket for tablets up to 10", to carry devices and large items in an organized and secure manner;
- Underarm zippers with Mesh fabric, for breathability and rapid cooling.

CLOSING

Zip covered by windproof flap, anti-snag system, and Velcro. Buttons at the neck.

REFLEX

Piping and reflective inserts on sleeves and hood.
