STRETCH CANVAS jacket

MC2563Z9

MATERIALS

Canvas 65% polyester, 32% cotton, 3% elastane. Contrast 4-way stretch fabric 93% polyester, 7% elastane. Oxford Cordura 500D reinforcements.

WEIGHT

280 g/m²

FEATURES

Work jacket made from canvas and 4-way stretch fabric, designed to offer robustness, comfort, and freedom of movement. The 4-way stretch fabric inserts ensure multi-directional elasticity, while Oxford Cordura® 500D reinforcements provide exceptional durability in high-stress areas. The modern and functional design includes two large three-dimensional chest pockets with flap and snap button closure, two vertical zippered pockets for mobile phone and wallet, and two side pockets with Cordura® profiles and snap closure. An internal pocket for personal items is located inside. Ergonomic bi-stretch fabric inserts on the sides facilitate movement during work activities. Its 7 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. Pre-shaped sleeves with an ergonomic cut improve mobility, while elasticated internal cuffs offer windproof and dirt-resistant protection. The jacket is completed by a retractable badge holder, triple reinforced seams for increased durability, and Cordura® reinforcements in the elbow area, designed to withstand daily wear and tear. Reflective inserts on the sleeves and back increase visibility.
