

SOFTSHELL

SHARK ladies' SOFTSHELL jacket

MC2595Z9

MATERIALS

Softshell, 96% polyester and 4% spandex with TPU membrane bonded with microfleece in hexagonal structure with breathable properties.

GRAMMAGE

320 g/m²

FEATURES

Designed to ensure maximum protection, comfort, and freedom of movement, this women's jacket combines modern design, an ergonomic cut, and technologically advanced materials. It is water-repellent, thermal, and breathable, ideal for all types of workers and perfect for outdoor activities. Its high performance ensures protection from the elements and prolonged comfort. Thanks to its multi-layer of high-performance fabrics, including a TPU membrane and ripstop fabric, the jacket guarantees waterproofing while promoting breathability, preventing sweat accumulation and maintaining optimal body temperature, thus creating a comfortable internal microclimate for the wearer. The microfleece with hexagonal texture adds a pleasant feeling of warmth and softness. Its ergonomic design and technologically advanced materials ensure freedom of movement, durability, and high performance. Its 5 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The internal pocket has enough space to safely carry even a tablet up to 10", or large items. The areas most exposed to wear are reinforced with cationic elastic Ripstop fabric, which ensures durability and resistance without compromising flexibility. The jacket is completed with a drawstring at the bottom, allowing for optimal adjustment, and elastic windproof cuffs, for effective protection against the elements. Reflective inserts applied on the sleeves and back yoke increase the garment's visibility. This combination of details and materials makes the jacket a versatile, robust, and comfortable garment, ideal for those seeking functionality and style in a single solution.

DETAILS

- 2 side pockets closed with zipper, for quick access to smaller items;
- Pen pockets and detachable badge holder via snap button on the right;
- Vertical pocket on the left closed with zipper;
- Oversized internal pocket closed with velcro, to securely and easily accommodate tablets up to 10" or large-format items;
- Reinforcements in cationic elastic Ripstop fabric on the parts most exposed to wear, increase robustness and durability;
- Drawstring at the bottom, for an ergonomic fit and adaptable to different body types;
- Elastic windproof cuffs, for an ergonomic closure that ensures greater adherence to the wrist and protects from various weather conditions;
- Women's fit.

CLOSING

YKK® waterproof, anti-snap zipper, equipped with an internal windproof flap.

REFLEX

Reflective inserts on sleeves and shoulders.
