

FUNCTIONAL GARMENTS

Men's lab coat

MC2647

MATERIALS

65% polyester and 35% sanforized cotton.

GRAMMAGE

150 g/m²

FEATURES

Work coat made of polycotton, with a high percentage of cotton which ensures natural thermoregulation and offers a perfect balance between durability and comfort. The presence of sanforized cotton ensures the dimensional stability of the fabric, i.e., resistance to shrinkage after washing. The treatment improves the fabric's resistance, making it more suitable for intensive use, such as in a professional environment. The 3 pockets make it functional and practical, allowing essential tools and objects to always be within reach during work. The elasticated cuffs ensure a secure and comfortable fit. The back vent improves freedom of movement and comfort during more dynamic activities.

DETAILS

- 2 side pockets, to ensure quick and easy access to smaller items;
- Chest pocket with pen holder;
- Elasticated cuffs, ensure a snug fit around the wrist;
- Back vent, promotes freedom of movement.

CLOSING

Five covered snap buttons.
