

SHIRTS

Jeans shirt

MC2813

MATERIALS

Denim 100% cotton.

GRAMMAGE

195 g/m²

FEATURES

Denim work shirt, made from 100% cotton fabric and designed to ensure durability and comfort during daily use. The stone-washed treatment gives the garment a worn-in look and a soft hand-feel, while maintaining the typical robustness of denim. The design features two patch pockets on the chest, closed with flaps and buttons for added security, while the front closure is buttoned, in line with the classic workwear style. The cuffs are adjustable with a button, ensuring practicality and a functional fit. This shirt is the ideal solution for those who need a reliable and durable garment, without sacrificing a professional look.

MAINTENANCE

Please follow the recommended washing instructions.

QUANTITY PER CARTON

20

DETAILS

- 2 chest pockets with flap and button closure, for storing small valuables without the risk of them falling out;
- Buttoned cuffs, for an ergonomic and stable fit;
- Stone-washed treatment, for a lived-in look with a soft hand-feel, for a style that doesn't compromise on comfort.
