TECHNICAL SHEET

SOFTSHELL

MURANO blouson

MC3118Z9

MATERIALS

Textured softshell 93% polyester and 7% spandex, bonded with 144 filament microfleece.

WEIGHT

440 g/m²

FEATURES

Work blouson made from embossed softshell with an elastic structure and a microfleece interior, making it lightweight, breathable, and thermal, ideal for tackling variable conditions without sacrificing comfort. Its construction ensures protection from wind and rain, keeping the body warm and dry. The design is enhanced by black abrasion-resistant fabric inserts strategically placed on the arms, shoulders, and pockets, for increased durability in high-stress areas. On the chest, there is a heat-sealed pocket with a zipper closure, while the hand-warmer pockets with zip closures offer practicality and protection. Inside, additional functional pockets allow for optimal organization of personal items. The fit is optimized by a soft elastic knit waist and cuffs, which ensure comfort and a snug fit; by preventing cold air from entering, they contribute to maintaining a constant body temperature. This garment combines modern style, functionality, and technical materials, making it perfect for those seeking high performance and freedom of movement both at work and outdoors.

DETAILS

- Anti-wear inserts in black fabric in the arm, shoulder, and pocket areas, to increase resistance to wear and tear;
- Heat-sealed chest pocket with zipper, for quick access to smaller items;
- 2 zippered hand-warmer pockets, help maintain a constant body temperature;
- Waist and cuffs in soft stretch knit, for an ergonomic and stable fit, preventing the ingress of external weather elements.

CLOSING

Central zip with internal windproof flap.
