

WINTER KNITWEAR

SIRFLEX zip collar sweatshirt

MC3124

MATERIALS

50% cotton, 50% polyester.

GRAMMAGE

280 g/m²

FEATURES

Work sweatshirt made of polycotton, ensuring comfort, durability, and ease of maintenance. The high percentage of cotton, combined with technical fibers, perfectly balances protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The zippered collar allows for practical temperature regulation and adds a sporty and functional touch to the design. The inner fabric neck tape improves the internal finish, protecting the skin from chafing and increasing the garment's durability. The elasticated knit cuffs and waist ensure a snug and comfortable fit, maintaining their shape over time. The contrasting chain stitching not only reinforces the seams but also adds a distinctive aesthetic detail, enhancing the sweatshirt's technical design.

DETAILS

- Collar closed with zip, for enhanced protection of the front cervical area;
- Internal fabric seam tape, improves interior finishing and increases garment durability;
- Rib-knit cuffs and waistband for an ergonomic and stable fit;
- Chain stitching in a contrasting color.
