

WINTER KNITWEAR

SCOUT MICROFLEECE

MC3130

MATERIALS

Fleece fabric, 100% polyester, high density, 144 filaments.

GRAMMAGE

200 g/m²

FEATURES

Work fleece made from high-density brushed fabric, designed to offer comfort and durability even in the most demanding conditions. Featuring a high collar with a zip closure, it ensures additional protection from the cold for the front cervical area and offers practical wearability. The inner collar trim and the contrasting black zip add a touch of style and attention to detail, making it ideal for both work environments and everyday use. The compact fabric ensures excellent thermal insulation, while the brushed structure offers a pleasant feel to the touch.

MAINTENANCE

Please follow the recommended washing instructions.

CATEGORY

I -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.

DETAILS

- Zippered collar, for enhanced protection of the anterior cervical area;
- Inner collar and zipper trim in contrasting black, improving the internal finishes.
