

CHEMICAL PROTECTION

CHEMICAL BIO coverall

MC3422

MATERIALS

Polypropylene with polyethylene film.

GRAMMAGE

90 g/m²

FEATURES

Disposable coverall made of polypropylene with a polyethylene film, designed to ensure maximum safety for those working in hazardous environments where exposure to multiple hazards is constant. This coverall offers an effective barrier against fine dust and also provides protection from light splashes of liquid chemicals, as well as from liquids, including inorganic ones. It also provides protection from radioactive contamination in the form of particles, as well as protection against infectious agents such as bacteria, viruses, and other microorganisms. Antistatic properties complete the coverall's safety profile. The hood, cuffs, waist, and ankles are elasticated to ensure an ergonomic and comfortable fit, while simultaneously creating an effective barrier against the ingress of external agents. Heat-sealed seams prevent the penetration of liquids and chemicals through the seams. In the knee area, there is a reinforcing fabric that increases mechanical resistance in areas subject to greater wear.

DETAILS

- Elasticated hood, cuffs, waist, and ankles for an ergonomic and stable fit, preventing the entry of hazardous external agents;
- Thumb loops keep the sleeve snug at the wrist and under the glove, preventing it from riding up during movement;
- Knee reinforcement fabric increases mechanical resistance in an area of higher wear;
- Chemical, biological, radioactive contamination, and liquid splash protection;
- Heat-sealed seams make the suit completely waterproof, preventing the penetration of liquids and chemical substances;
- Antistatic treatment.

CLOSING

Two zippers, one with a double slider and the other covered by an adhesive strip.

AVAILABLE COLOURS

- E0 - Yellow

SIZES

- In stock
- On production
- Made to order
- Tailor made

FIELDS OF USE

- > Agriculture - gardening - forestry
- > Food - cleaning - hospital
- > Construction - road works
- > Chemical-pharmaceutical industry
- > Petrochemical industry
- > Tertiary - trades

MAINTENANCE

The device is disposable, it does not require maintenance.

QUANTITY PER CARTON
