<b>Name: INTERCEPTOR PLUS COVERALL</b>	<b>Code: MC3430H0</b>	<b>MC34 CHEMICAL PROTECTION DISPOSABLE CLOTHING</b>
----------------------------------------	-----------------------	-----------------------------------------------------

**Description**

Fully-encapsulated anti-gas coverall to be used with self-contained breathing apparatus with autonomous air supply through cylinders. Made in multilayer fabric, 325 g/m . Featuring taped seams both inside and outside, gas-tight zipper closure covered with double flap, built-in shoe covers to be fitted in the boots (not included), built-in gloves with double protection, chemical protection inside, butyl outside. Protection against a wide range of chemical agents.

It meets the needs of those who need a very broad spectrum of protection from gases and chemicals, often unknown at the time of intervention.

For proper use, a self-contained respirator is required with air supply through cylinders.  
Attention: do not use as fire protection garment. Avoid flames and intense heat.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 and subsequent amendments.
