

CHEMICAL PROTECTION

CHEMFOR coverall 8100

MC3440

MATERIALS

Polypropylene with polyethylene film.

GRAMMAGE

55 g/m²

FEATURES

Disposable coverall made of polypropylene with a polyethylene film, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. This coverall offers an effective barrier against fine dust and also provides protection from light splashes of liquid chemicals, as well as from infectious agents. Antistatic properties complete the coverall's safety profile. Latex-free. The hood, cuffs, waist, and ankles are elasticated to ensure an ergonomic and comfortable fit, while simultaneously creating an effective barrier against the ingress of external agents.

DETAILS

- Elasticated hood, cuffs, waist, and ankles for an ergonomic and stable fit, preventing the ingress of hazardous external agents;
- Protection against solid particles, infectious agents, dusts, and light sprays;
- Antistatic treatment.

CLOSING

Zip covered by a flap.
