

HIGH VISIBILITY CLOTHING

GRIFONE waistcoat

MC3513

MATERIALS

100% polyester.

GRAMMAGE

120 g/m²

FEATURES

High-visibility vest made of polyester. Certified Class 1 for high visibility, the garment ensures a basic level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. Visibility is ensured by the presence of double reflective bands sewn on the chest, complemented by a single band on the shoulders, strategically positioned to offer 360° visual coverage and improve the detectability of the operator in motion. The design is simple and functional, intended to be worn over other garments without compromising freedom of movement. Practicality is further enhanced by the presence of two three-dimensional lower pockets with flap and velcro closure, a cell phone pocket with a D-ring for attaching accessories, and a transparent badge holder applied to the left side of the chest.

DETAILS

- 2 lower three-dimensional pockets closed with flap and velcro, for storing bulkier items;
- Right-hand phone pocket with pen holder, D-ring, and left-hand badge holder.

CLOSING

Zip.

REFLEX

Double reflective bands on the chest. Single reflective band on the shoulders.
