

HIGH VISIBILITY CLOTHING

FALCO waistcoat

MC3515

MATERIALS

100% polyester.

GRAMMAGE

120 g/m²

FEATURES

High-visibility vest made of polyester. Certified to Class 2 high-visibility standards, the garment ensures a medium-high level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. Visibility is ensured by two-tone prismatic reflective bands, strategically applied to the chest and shoulders, to offer optimal detectability of the wearer from various angles. The prismatic material contributes to a higher reflective intensity compared to traditional bands. The design is simple and functional, intended to be worn over other garments without compromising freedom of movement. The front zipper closure ensures a stable and secure fit during work activities.

DETAILS

- Right-side cell phone pocket with flap and velcro closure, for securely carrying your cell phone without the risk of it falling.

CLOSING

Zip.

REFLEX

Two-color prismatic reflective band on chest and shoulders.
